ABOUT ME

Award-winning 3D artist & multidisciplinary designer with 6+ years of experience in animation, compositing, real-time graphics, and immersive visual storytelling. I create cinematic, high-impact visuals with strong lighting, motion, and design clarity, collaborating with global teams at Microsoft, GitHub, and leading creative studios. My work spans 3D animation, motion design, AR, and emerging tech, driven by a passion for crafting meaningful, visually compelling experiences.

WORK EXPERIENCE

Inspired Thinking Group – 3D Motion Designer

2023–2025

Collaborated on content for Microsoft, GitHub, and enterprise clients. Created broadcast-quality animations and VFX composites. Enhanced brand identity using cinematic motion.

Onething Design studio – Senior Motion Designer

2022–2023

Worked on motion and 3D content for brands like Royal Enfield, Noise, and RBL Bank, crafting product videos, UI animations, and visual storytelling assets that enhanced digital brand experiences.

Aligned studios – 3D Animator

2020–2022

Creating Motion Graphic Content, animating characters to life, researching and developing real-time possibilities using Unreal Engine with various ongoing projects.

Filmic art – 3D Generalist

2019–2020

Created 3D animations and compositing for brand films for Minecraft, Paradox Interactive, Google, and top Swedish brands, blending cinematic visuals with design precision.

Freelance Motion designer

2016–2020

Created 2D and 3D motion graphic animations for various client locally and globally, Nojig, Voi, Rolling stache studios, Two.branding etc.
