PERSONAL STATEMENT

I am a driven and adaptable individual and a graduate with an MA degree in Computer Animation and Visual Effects at Teesside University in 2020 and recently completed another Master's degree in Digital Media and Communication at Teesside University in August 2024. As an international student, I have demonstrated my determination and commitment to completing my academic studies, which also evidences my ability to build and maintain strong working relationships with both my peers and academic professors. During my 3-month Advanced Practice internship in 2019, I learned some techniques that enhanced my graphic design skills, 2D animation, and visual effects as well as gained experience in the working environment.

SOFTWARE SKILLS

- | | | | |
|-------------|-----------------------|---------------------|------------------|
| • Photoshop | • Adobe Premiere Pro | • Microsoft Word | • Inkscape |
| • Nuke | • Paint.Net | • Adobe Illustrator | • Adobe XD |
| • 3D-Coat | • Krita | • Unreal Engine 4 | • Adobe Audition |
| • Maya | • Adobe After Effects | • Substance Painter | |
| • ZBrush | • Houdini FX | • Blender | |

RECENT EDUCATION Teesside University

Teesside University

Key Modules Studied: *Virtual Reality, Research Methods, Creatures, Facial Animation and Dialogues, Acting for Animation, Body Mechanics.*

Teesside University 2015 - 2018 BA Honours Degree in Computer Animations and Visual Effects (Achieved Second Class Upper)

Key Modules Studied: *Advanced Animation Pre-Production, Animation Short Film Production, Computer Animation Project, Visual Development for Visual Effects, Modelling and Rigging for 3D Computer Animation, Digital Visual Effects and Compositing, Animation Production.*

EMPLOYMENT/WORK EXPERIENCE (Advance Practice 2019) & VOLUNTEERING

Internship with Teesside University Department of Academic Enterprise Oct-Dec 2019

- Designed and animated commercial videos for the bio-economy brand.
- Enhanced skills in creating storyboards for depicting script, graphic designs, visual effects and 2D animation using various software (Adobe Illustrator, Adobe After Effects & Adobe Premiere Pro).
- Learnt to interact with supervisor's colleagues to request feedback to improve the project.
- Project can be found through this link:
<https://www.youtube.com/playlist?list=PLjVIZ60jM20x8daBpz5At2xKgnGphKVzh>

Volunteers – Making Christmas cards for Children Hospital Nov 2019

- Took part in volunteer work at the University making Christmas cards for children in the hospital.
- It was also a way of showing my creativity in art and design by using various art materials to design cards.

Work Training Program at Amnick Social Enterprise as Junior Graphic Designer Mar - Apr 2023

- This was a work training program to gain more experience in graphic design.
- Its main base is in the UK but international applicants can take part in it and it is remote and the timing is flexible.
- Tasks (mainly presentation, poster and magazine cover designs) were given and reviewed for improvements during virtual meetings.

PROJECT EXPERIENCE

Master Project: Animation: MA Final Year Project 2020

I modelled a city that I named Griffin City using Maya and Substance Painter for my MA final year project. The model city is divided into five sections representing different areas. I modelled and rigged people and vehicles for the city to create the liveliness of the city. Some of the architectural designs I modelled are based on designs of famous buildings. The skills demonstrated for this project are modelling, sculpting, camera panning, rigging, animating, lighting and rendering. For this project, I received 62%

The project can be found through this link: <https://vimeo.com/manage/videos/663352285>

Computer Animation Project: Final Year Project 2018

My final year project was named Museum Interior, which involved modelling a gallery using Maya, ZBrush and 3D-Coat. The museum displays modern artworks, some of the artworks were made by me while others were made by other people on archive.org who allow people to use them if they are credited. The museum includes 29 pieces of art. In this project, the skills I demonstrated were modelling, sculpting, camera panning, lighting and rendering. For the project, I received 67%

The project can be found through this link: <https://vimeo.com/manage/videos/663680485>

PREVIOUS QUALIFICATIONS

The One Academy (Malaysia)

2014 - 2015

Achieving a Certificate of Communication Design

St. John International (Malaysia)

2009 - 2013

Achieved 10 IGCSEs A-C including English Language and Mathematics

LANGUAGES

Malaysian and English

ADDITIONAL INFORMATION

Art & Graphic Design

- During my spare time, I draw and sketch various things such as cartoon characters, sceneries, and other varieties of designs to express creativity. Other than that, I also used drawing software to practice art and graphic design. Once the picture is complete, I upload it onto my Instagram account to share my work with people. <https://www.instagram.com/artisttyp/>

3D Modelling, 2D/3D Animation & Motion Design

- I practice modelling using the software, Maya, Blender and Adobe Software. It helped me to improve my modelling and animating skills. Most of my projects are posted on my Vimeo AND YouTube accounts. <https://vimeo.com/user51110534>
<https://youtube.com/@tanyipan3554?si=ISf1Eao2Hn97ljk2>

Reading books and writing a short story

- I read books during my free time including children's books and novels to help me relax. Reading the book, gave me the idea to write my own short story and maybe have it published. The story I am writing is about a boy and his animal friends, a dog and a squirrel. I also hope I can have it published to share with people.
