

KULEEN CHOUBEY

Generative AI Specialist & 3D Visualization Expert

New Delhi, India

Phone: +91 9599131743 | Email: kuleen.choubey12@gmail.com

PROFESSIONAL PROFILE

Generative AI Specialist & 3D Visualization Expert with 3+ years of experience automating design pipelines, developing procedural assets, and producing real-time visuals. Proven ability to merge design and technology—cutting delivery times by up to 30% and delivering plug-and-play AI tooling for studios. Creator of a top-selling Blender plugin (100+ licenses) and 8 proprietary AI models used across 15+ client projects. Trusted by leading names including Aluminr Doors, ME DO RE, Wipro, Wari Watai, Leafon, Matra Architects, Studio Lotus, Subodh Gupta, and Nature Morte.

CORE SKILLS

Generative AI & Automation

ComfyUI, Flux (Dev, Kontext, Krea) and SD3.5, Stable Diffusion, MidJourney, Hunyuan3D 2.5, Higgsfield, Google Veo 3, DeepSeekr1

N8N automation • Python scripting • Blender Geometry Nodes • Rhino Grasshopper

3D & Real-Time Visualization

Blender (Cycles), SketchUp, Rhino 3D, 3DS Max, Lumion, D5 Render, Unreal Engine

Procedural asset creation • Cloth simulation (Marvelous Designer) • Fluid simulation (Liquigen) • 3D printing workflows • Texture generation • Upscaling (Topaz Gigapixel) • Pinokio (automated runtime for AI apps) • Flux LoRA training (lightweight training AI)

Design & Creative Tools

Adobe Creative Suite (Photoshop, Illustrator, After Effects, Premiere Pro)

AutoCAD • Gaia • JangaFX • UI/UX basics (Wix)

Methods & Processes

Lighting optimization • Photorealism • Design automation

Rapid prototyping • Client presentations • Workshop facilitation

PROFESSIONAL EXPERIENCE

Founder, Altrune

Generative AI Specialist & 3D Visualizer — New Delhi, India

October 2024 – Present

- Manage monthly retainers with three leading architecture studios including Matra Architects and Studio Lotus, delivering high-fidelity 3D and AI-augmented visual assets on-demand.
- Created and commercialized a Blender Instanced Lighting Plugin (100+ licenses sold), reducing lighting setup time by 40%.
- Developed 8 custom generative AI workflows with Flux Dev for procedural asset generation, accelerating concept iteration by 50%.
- Built and deployed end-to-end AI pipelines using ComfyUI and Hunyuan3D, supporting ultra-high-resolution render generation.

- Advised studios on AI integration and automation strategy to streamline visual workflows and asset reuse.

Head of 3D Visualization & Generative Design Consultant

Matra Architects & Rurban Planners — New Delhi, India

Jan 2023 – Sept 2024

- Produced photorealistic renders using Stable Diffusion, MidJourney, and custom procedural tools.
- Enhanced social media content with AI-generated visuals, increasing engagement by 70%.
- Delivered imagery for award-winning projects, helping accelerate design approvals and public communications.

Architectural Designer & Visualization Specialist

Studio Lotus — New Delhi, India

Jul 2021 – Dec 2022

- Used generative AI tools to develop textures, concepts, and mood boards, enhancing creative direction and clarity.
- Provided consulting across teams for standardized file structures and real-time visualization workflows.
- Conducted 10+ company-wide workshops on AutoCAD, SketchUp, Blender, Lumion, D5 Render, and AI-based design processes.

NOTABLE PROJECTS

- **ME DO RE 2 – Dubai Skyscraper Commercial (5 min):** Directed full CGI pipeline—modeling, lighting, rendering, and AI-based upscaling.
- **Blender Plugin :** Developed and sold 100+ licenses of an Instanced Lighting Plugin to streamline artist workflows.
- **Flux Dev Models:** Delivered 8 custom generative AI models, used across 15+ professional projects to reduce ideation time by up to 50%.

NOTABLE CLIENTS

- Aluminr Doors • ME DO RE, Dubai • Wipro • Wari Watai • Leafon • Matra Architects • Studio Lotus • Subodh Gupta • Nature Morte • JEEM Studio, Dubai • Augusta Properties, Dubai

EDUCATION

Bachelor of Architecture

University School of Architecture & Planning — 2017-2022
