## 3D EXPERIENCE

---

### Cadpeople UK

November 2023 - Ongoing

3D Generalist

- Worked both on independent and group-led 3D projects, ranging from architectural visualisations, animated 3D environments, product rendering, VR experiences, and AR platforms.
- Created stunning visuals in both exterior and interior 3D environments.
- Involved in all parts of CG pipeline, including hard surface modelling, texturing, lookdev, lighting and compositing, primarily using 3DS Max, Corona, Photoshop, and After Effects.
- Used both Unreal 5 and Unity engines to contribute to various real-time projects.

### iSite TV

January 2023 – November 2023

3D Artist

- Created CG visualizations and animations for various clients, including architectural visualisations, animated 3D environments and product rendering.
- Involved in all parts of CG pipeline, including hard surface modelling, texturing, lookdev, lighting and compositing, primarily using 3DS Max, V-Ray, and After Effects.
- Implemented advanced lighting and rendering techniques to improve CG photorealism and company workflow.

### Coleman Television

April 2021 – August 2022

Lead 3D Artist

- Solely lead the creative 3D effort to create high-quality visualizations for various television projects with the use of Maya, Nuke, and Adobe After Effects.
- Responsible for implementing full CG pipeline from scratch, including local render farm support via Backburner.

### 7Ft., Hairy and Handsome (Animated Short Film)

October 2020 – November 2021

Lighting Artist

- Worked as part of a team of lighting artists on an independently funded animated film, which was nominated for several awards at various Scottish film festivals.
- Lit assigned shots to a high standard, with particular attention given to the desired mood / style brief.
- Took initiative in defining a colour and style tone for shot sequences the team was responsible for to ensure consistency and quality across different shots and lighters.
