EXPERIENCE

3D ARTIST AT REC ROOM | March 2021 - October 2025

- Modeled, UVed, textured, skinned, implemented and tested over 200+ high quality stylized avatar wearables, props, consumables and weapon skins that have shipped weekly on 9 platforms to millions of monthly active users.
- Created in-game avatar assets in collaboration with high-profile clients such as PUMA, Paramount and Mattel which drove \$2M+ in revenue.
- Provided high quality feedback and paintovers to an outsourcing team for Rec Rooms first outsourcing pipeline to ensure items met the Rec Room style and technical standards. Helped avatar production scale by 220% in 2024 while implementing and delivering 100% of planned items on time.
- Contributed to new pipeline development by offering insights and performing rigorous early feature testing of proprietary tooling in collaboration with partner teams. Helped in defining how Avatar Studio, Rec Room's Unity toolchain for internal and external parties, works for testing and uploading avatar assets into the game.
- Shipped 3 Rec Room Original Games; contributed to production through prop modeling. Additionally, worked cross-team to develop an iconic playable enemy character by modeling, texturing, skinning and iterating on the final design.

ENVIRONMENT ARTIST ON "COR DOMUS" | 2019

- Worked in an Agile setting as an Environment Artist for a 7 person indie team. Researched and created mood boards to help define overall art style and environment design.
- Responsible for designing and set-dressing natural areas. Modeled and UV foliage assets in Maya, textured them with Photoshop and Substance Painter.
- Painted the terrain with a focus to guide the players through the levels. Collaborated with the gameplay designer to create level designs, block-outs, and elaborate environment puzzles.
- Designed and sculpted modular pieces for the boss level. Retopologized high poly pieces using Topogun.

ENVIRONMENT ARTIST ON "ONE" | 2018

- Worked with the art team to develop environment assets in Maya and textured them using trim sheets in Photoshop.
- Collaborated with the sound designer to create sound effects and develop an overall feeling for the game. Integrated sound assets using Unreal Blueprints.

ACHIEVEMENTS

FINALIST FOR BEST STUDENT PROJECT | 2019

Cor Domus - Unity Awards 2019

PEOPLE'S CHOICE | 2019

Cor Domus - The Rookies Game of the Year 2019

BEST IN GEORGIA FINALIST | 2019

Cor Domus - GGDA 2019

FIRST PLACE | 2019

Cor Domus - SCAD Global Game Jam 2019

SOFTWARE

Adobe Photoshop
Autodesk Maya
Blender
Github/SourceTree
Substance Designer
Substance Painter
Topogun
Unity
Unreal Engine
