 - Look Development & Lighting
 - Scripting (VEX)
 - UV Mapping & Retopology
 - Texturing & Shading
 - Compositing
- Primary Software:** Maya, Houdini, Substance Painter, Zbrush, Nuke, Unreal Engine
 - Secondary Software:** Blender, Marvelous Designer, Photoshop
 - Renderers:** Arnold, Karma/Solaris, Houdini Mantra, V-Ray

Work History

CG Artist (Mar 2024 - Aug 2024)

Fiverr (Freelance)

- Created **small-scale FX simulations** (cloth tearing, particles, pyro) and **3D models** for indie projects and side gigs, tailored to client needs in freelance platforms.
- Delivered **FX setups ready** for integration into animation pipelines, ensuring technical accuracy and creative alignment with project briefs.

3D Artist (Feb 2021 - Apr 2022)

ScratchNest (Full-Time)

- Worked as a 3D Artist for a product design firm, tasked with creating **high-quality 3D assets**, for product launches, advertisements, and brand visuals.
- Collaborated with CAD Engineers and Look Development teams to produce **accurate renders**, ensuring consistency with branding goals.
- Delivered **17+ production-ready models**, optimised for lighting and rendering in Arnold using Maya.
- Worked on **post-production animation tasks** using Adobe After Effects, adding polish and cinematic quality to projects.
- Achieved a consistent track record for delivering **visually appealing assets**, elevating brand presence and driving successful product launches.
