

# Felix Klein - VFX Artist CV

[felixalexanderklein@gmail.com](mailto:felixalexanderklein@gmail.com)

+44 (0) 7736354880

I am a VFX artist with a keen interest in multi-disciplinary workflows. I am a highly motivated and passionate worker, dedicated to bringing cohesive and visually striking art to the table - from concept through to the finished product.

## Skills

**I am proficient in:**

- Houdini
- Maya
- Zbrush
- Substance Painter/Designer
- Unity & Unreal Engine 5
- Photoshop/Procreate
- TouchDesigner
- Highly developed concept art/illustrative skills

**I have knowledge of:**

- Blender
- Version Control
- FL Studio/Ableton/Logic Pro

## Education

### ***Escape Studios (2024-2025)***

MA in 3D VFX Production, with gold scholarship

Pivoting from Videogames to Film & TV, I learnt a myriad of workflows, mainly using Houdini and Maya. I am now proficient in most workflows on Houdini, including FLIP, Pyro, RBD, and the matchmoving pipeline for 3D integration in 3dEqualiser.

### ***Falmouth University (2021-2024)***

BA (Hons) in Videogame Art: 2.1

This is where I first started honing my 3D and 2D skills, learning different methods of creating art. This entailed soft modelling, hard surface modelling and concept art, alongside team projects in the 2nd and 3rd years of my course.

## Experience

### ***Cosmic Cowboy (2023-2024)***

I worked for one year on a turn based tactics game with a multi-disciplinary team, with a demo released on Steam. Achievements include:

- Presented our game as exhibitors at Insomnia Gaming Festival 2024 in Birmingham
- Presented our game at the Falmouth University Games Academy Expo 2024
- 2,000 followers on LinkedIn for our studio, Summit Studios
- Raised a total of £580 on our Kickstarters, surpassing the £500 goal.

## Personal Information

I am an international person, holding German and American passports, and grew up in the UK. I play guitar, create electronic music on an amateur level, and love to draw in my free time. I also enjoy working out, hiking and skiing.
