

JOAQUIN DOYHENARD

3D GENERALIST | DIGITAL ARTIST | VFX STUDENT

[HTTPS://JOAQUINDOYHENARD.COM/](https://joaquindoyhenard.com/)

barcelona, spain | NIE | +34600089451

nationality | arg / italian

joaquindoyhenard@gmail.com

PROFILE

Environment-focused 3D Generalist & VFX student passionate about building believable, real-time worlds. with a background in industrial design and game production, i specialize in modeling, materials, and environment assembly for stylized and realistic projects. i enjoy working closely with art direction and technical constraints to deliver performant, production-ready environments.

STUDIES

2014
INDUSTRIAL DESIGN UP universidad de palermo - argentina

2023
3D ANIMATION W/ BLENDER UTN - argentina
MOTION GRAPHICS image capus - argentina

2024
ALIVE! ANIMATION W/ BLENDER P2design - perrick picault

2025
MASTER SUPERIOR EN VFX FX barcelona - españa (en curso)

EXPERIENCE

ENVIRONMENT ARTIST (PART-TIME COLLABORATION) – 2025
byzantian interactive [game development] – remote

- built and delivered environment assets for the game's main village area, including large-scale landscapes and mountain formations, real-time integration
- optimized meshes, uv layouts and sset density for real-time performance, ensuring a scene assembly and engine-ready delivery
- collaborated closely with the creative team to define mood, tone and atmosphere, balancing stylized visuals & technical constraints

softwares: blender, maya, unreal engine

3D ARTIST & GENERALIST FREELANCER - 2024
remote

- delivered 3D assets and motion graphics for brand presentations and digital content across spain
- optimized assets for online marketplaces (cgtrader, sketchfab), focusing on performance, presentation quality & technical consistency
- created production-ready low & mid poly assets, clean uv layouts & PBR textures

softwares: blender, maya, substance painter, photoshop, after effects, nuke

ASSISTANT | DIGITAL PROTOTYPING - 2022
clawdi [upcycling fashion industry] - australia

- optimized digital garment prototypes using clo3d, reducing material waste by 25%
- accelerated production timelines while maintaining design quality & material efficiency
- supported the design-to-production process

PROJECT MANAGER | TECHNICAL COORDINATOR - 2018 - 2021
palermitano solution [IT company] - argentina

- delivered auditorium and video conference installations across south america for key clients including google and uber
- led and coordinated teams of up to 10 technicians per project, ensuring timely and technical execution, while maintaining strong cross-team communication
- contributed to new client acquisition by presenting completed projects

3D DESIGNER & PROJECT LEAD - 2015 - 2018
blasting SA [shot blasting & peeing industry] - argentina

- redesigned machinery parts and production components, improving manufacturing efficiency and reducing technical errors
- worked directly with production lines to maintain quality standards
- streamlined manufacturing workflows by updating and standardizing technical drawings

software: solidworks, CATIA, autoCAD

SKILLS

environment creation | organic modeling (rocks, cliffs, terrain-like forms) | hard-surface environment assets | worldbuilding & scene assembly | composition & readability

materials & texturing | PBR texturing | material definition & surface breakup | UV optimization & texel density management
