Work Experience

Tempt India Pvt LTD - 3D Designer

Jun 2024 - Dec 2025

Electronic Accessories Brand

- Creating more 3D renders and product advertisements of 30+ huge categories of tech products to highlight their features and functionality for Amazon,Flipkart and other official websites.
- As a Designer I work with Artists,Testers and marketing professionals. By working together, you can ensure that all the visualisation content accurately represents the design,intent and meet all the needs related to marketing of the specific products.

Freelance - 3D Artist

May 2022 - Present

Various Clients

- High-quality PBR 3D assets for real-time applications and marketplaces.
- Created complete 3D product animation pipelines from concept to final render for multiple clients delivering high-quality marketing and e-commerce visuals on time and within budget.
- Traditional (Low/High-Poly), Weighted Normal, and Mid-Poly/Nanite workflows.

FEDUS - 3D Artist

March 2023 - April 2024

Electronic Accessories Brand

- Creating 3D models & Visuals of 40+ appliances to showcase their features and functionality for amazon and other websites.
- I work closely with others such as engineers, and marketing professionals. By working together, you can ensure that the 3D models accurately represent the design intent and meet the marketing requirements.

Sanvitech Games Studio - 3D Artist

March 2022 - Feb 2023

Android Games Studio

- Modelling and texture optimization for real-time 3D game applications.
- Worked with software engineers to produce final output in formats for integration into game compilation.
