

MUHAMMAD SULTAN

3D Modeler

+923118215875

sultanbwp340@gmail.com

Lahore, Punjab Pakistan

PROFILE SUMMARY

Highly skilled and passionate 3D Artist with hands-on experience in creating high-quality characters, environments, and hard-surface & soft-surface models for production. Proficient in the complete 3D pipeline, including modeling, texturing, rigging, and animation, with a strong command of Autodesk Maya, Substance Painter, and Photoshop.

Combining artistic creativity with technical precision, I specialize in developing visually engaging and production-ready assets that enhance storytelling and meet studio standards. I thrive in collaborative environments, pay close attention to detail, and am always eager to push creative boundaries to deliver exceptional visual results.

EDUCATION

Superior College Lahore

2016 - 2018

- ADPCS (Associate Degree Programme for Computer Science)

WORK EXPERIENCE

3D Modeler | Terafort

08/2023 - PRESENT

- Designed 3D characters from concept to final render (realistic & stylized).
- Created environments, props, and vehicles for multiple game genres.
- Produced optimized low-poly assets for mobile games.
- Modeled high-poly characters for cinematic renders.
- Performed character rigging and basic animations.
- Built isometric diorama environments for casual games.
- Completed UV mapping and asset optimization.
- Created PBR textures in Substance Painter & Photoshop.
- Collaborated with design and tech teams for game integration.
- Handled lighting, baking, and optimization in Unity.

3D Modeler | Centaur Gamez

08/2022 - 08/2023

- Created 3D models, textures, props, and environments in Maya, Substance Painter, and Photoshop.
- Produced optimized game-ready assets with clean topology.
- Assisted in cinematic and promotional render production.
- Performed texture baking, UV refinement, and lighting adjustments.
- Implemented and tested assets in Unity.
- Rendered scenes and characters using Arnold Renderer.
- Prepared in-game screenshots and promotional visuals.

- Created optimized low-poly models for mobile and interactive apps.
- Assisted in environment layout and scene composition in Maya.
- Prepared characters and props for animation and real-time use.
- Produced high-quality renders using Arnold Renderer.
- Tested materials, textures, and lighting through preview renders.
- Contributed to AR/VR environment prototypes.
- Built strong fundamentals in modeling, texturing, and scene assembly.

PROFESSIONAL SKILLS

- | | |
|---------------------------|---------------------------|
| • 3D Modeling & Sculpting | • Texturing & Shading |
| • Rigging & Animation | • UV Mapping & Unwrapping |
| • Rendering & Lighting | • Game Art & Optimization |
| • Video & Post-Production | • Collaborative Workflow |
| • 2D & Graphic Tools | |
