SUMMARY

- 6+ years of experience in 3D-modeling and Visual Effects for software development companies and game studios, ranging from VR-applications to cross-platform games (PC/Mobile) with live ops.
- Author of over 900 real-time particle effects such as explosions, fire, smoke, weather effects, weapon effects, sci-fi and magic VFX
- Proficient in hard-surface modeling, organic sculpting, props, environments and characters
- Proficient in authoring textures, materials and shaders

PROFESSIONAL EXPERIENCE

Everguild Ltd.

Remote (Spain)

VFX-Artist

August 2022 - Present

Everguild is a game development company operating internationally with 20 employees, creating digital card games based on a well-known IP, Warhammer 40,000. Their games have a dedicated community and more than 2 million downloads on mobile.

- Sole VFX-artist, reporting directly to the Game Director
- Responsible for defining the style and look of the game with +900 real-time particle effects.
- Created base VFX templates to speed up creating variations of effects for different factions.
- Created custom 3D-models, textures, shaders and sprites to be used across effects.
- R&D of new techniques and workflows
- Contributed with sound design and created SFX to suit the new VFX.
- Creating new VFX for Game Expansions of ~60 cards every 2-3 months, as well as for Reinforcement Drops of ~10 new cards 2-3 times between Expansions.

Hyperboreal Ltd.

Kuopio, Finland

Entrepreneur

Feb 2022 -

Hyperboreal is the company I founded to make a professional transition from a freelancer to developing my own IP. Recently I have been developing a roguelite bullet heaven, Block In, coming to PC in 2026.

- **Block In** is entirely solo-developed without any AI tools.
- Programming in C#, animating, 2D assets, real-time VFX, game design

Next Level Grades LLC.

Remote (US)

Lead Designer

Apr 2021 - Mar 2022

Next Level Grades is a tech-based card grading company based in the US. They focus on grading sports cards and their service includes a digital double of the graded card as well as a chip with a digital fingerprint.

- Created 3D-models and a workflow template for digital doubles that graders could use to efficiently create textures.
- Contributed to designing labels based on grades/rarity.
- Designed the shipping bag and other various accessories.

3D-Talo Finland Ltd.

Kuopio, Finland

3D-Artist

Aug 2019 - Feb 2022

3D-Talo is a VR-studio of 15 employees based in Kuopio, Finland. The company offers XR-solutions for businesses ranging from visualization and design to virtual training and has over 800 completed customer projects ranging from historical reconstructions to military training.

- Contributed to creating 3D-assets, such as props and environments as well as textures for VR-applications and various customer projects.
