Professional Summary

Innovative and detail-driven Lead / Senior 3D Artist with 6+ years of work experience and a proven track record leading asset development for top Video Game franchises such as *Assassin's Creed* and *Rainbow Six*. Experienced in real-time interactive pipelines and advanced creative workflows, enabling faster iteration, high-impact visuals, and cinematic-quality storytelling. Adept at streamlining production, managing cross-functional teams, and delivering compelling content across games, marketing campaigns, and investor presentations.

Experience

Tahaluf AI Emarat Technical Solutions — UAE (Remote)

Senior 3D Artist / Visual Content Specialist | Jan 2026 - Present

- Led end-to-end creation of high-impact visual content for B2B and B2C clients, delivering promotional videos, infographics, and platform showcases aligned with business and marketing goals.
- Owned full production pipelines from concept development and storyboarding to 3D production, animation, rendering, and final delivery.
- Produced large-scale event and product showcase visuals, translating complex products, platforms, and services into clear, engaging visual narratives.
- Coordinated closely with clients, internal teams, and stakeholders, managing feedback loops, timelines, and cross-functional collaboration to ensure successful project delivery.

Spawn Tools — Delaware, USA (Remote) (Contract)

Lead / Senior 3D Artist | Dec 2024 – July 2025

- Led the creation of high-fidelity demo assets, videos, and in-house demo games for investor presentations and proof-of-concept projects, integrating content across Unity, Unreal Engine, and Three.js.
- Drove R&D initiatives, co-developing AI-powered natural language-to-mesh and mesh generation tools, reducing asset creation and prototyping time by up to 80%.
- Designed, modeled, rigged, and animated optimized real-time characters, NPCs, and environments while solving complex technical challenges related to performance, rendering, and memory management.
- Streamlined production workflows through rapid prototyping, pipeline optimization, and cross-functional collaboration, consistently delivering high-quality results under tight deadlines

Barakat Gallery — Mayfair, London, UK

Assistant Manager / Curator | Aug 2024 – Nov 2024

- Worked closely with Faye Barakat, gaining direct exposure to high-level curation, collector relations, and global fine art market operations.
- Developed strong curatorial and commercial insight by balancing artistic vision with business and gallery management responsibilities.
- Built a deep understanding of historical art, craftsmanship, and cultural heritage, influencing a more narrative-driven and refined creative approach.
- Strengthened storytelling sensibilities by engaging with rare antiquities and visually significant historical works..

Creative Machine — Remote, USA (Contract)

Lead / Senior 3D Artist | May 2024 – Aug 2024

- Spearheaded the creation and delivery of production-quality 3D assets, including detailed Environments, Characters, and Rigs, ensuring high visual fidelity and technical compliance.
- Optimized visual presentation by managing advanced lighting and rendering pipelines for final scene production.
- Leveraged technical expertise in Maya and Blender to develop custom tools and scripts, significantly automating and improving workflows for asset creation and integration.

Integral Reality Labs — California & Remote, USA,

Lead / Senior 3D Artist | Oct 2019 – July 2024

- Produced collectible 3D assets for franchises such as *Assassin's Creed*, *Rainbow Six Siege*, *For Honor*, and *Star Trek Online*.
- Led a team of 3 artists and 2 contractors, increasing output efficiency by 25%.
- Introduced new production pipelines and tools, cutting costs by 10% and improving timelines by 30%.
- Delivered high-detail 3D prints and digital assets for product lines and investor-facing visuals.
- Solved complex challenges across modeling, texturing, and rendering using Maya, Blender, Substance Painter, and ZBrush.
- Played a key role in developing internal tools that sped up model prep and streamlined production.

Freelance 3D Artist | 2019 – Present

- Successfully managed and led multiple AR projects for clients using Unity, consistently achieving high client satisfaction. (Aug 2025)
- Collaborated with Tahaluf and their team as a 3D animator, lighting, and rendering artist on a project to deliver impactful 3D visuals. The work boosted client engagement and satisfaction, earning positive feedback. (Nov 2024)
- Directed VFX work for a marketing campaign at Talabat, which enhanced the cinematic quality and storytelling, making the campaign more engaging for the audience. (June 2024)
- Improved rendering speed by 20% at Azrar Media through optimized Unity workflows, which significantly reduced production time and increased team efficiency. (June 2024)
- Collaborated with photographers and producers, ensuring that the visual elements seamlessly integrated with the overall creative vision, which strengthened the final output. (June 2019)

Additionally worked on various freelance projects across marketing, gaming, and visualization delivering tailored 3D content to clients globally while adapting to diverse creative and technical pipelines.
