Additional Information

Indie Game Developer - Game Designer

Studio CB

July 2020 - Present

Small team of two people developing a pc game. The game we're developing is called Uncovered, it's a casual stealth game that you need to hide yourself to discover the mysteries of history. I'm responsible for art, management and the gameplay functionality as well as all the technical solutions to achieve an optimized pc game.

Indie Game Developer - 3D Modeler

Vira-lata Caramelo Studio

August 2019- Present

Small team of three artists , 1 art director and 1 maneger. The game in development is called NoGrua, it's a casual 'endless runner' for platform mobile. In the game you must make the maximum points and you can ride your bike and keep the balance. I'm responsible for the character models and textures, in addition to all the character animations.
