### SUMMARY

---

As a Senior Motion Graphic Designer and 3D Generalist, I'm passionate about creating visually striking motion pieces that balance strong art direction with solid technical execution. I work from start to finish on concept and look development to animation, lighting, rendering, and compositing, reliable workflows that hold up under real deadlines.

My main toolkits are Cinema 4D and After Effects, supported by Redshift/Octane for rendering and Houdini for simulations. I'm comfortable jumping between creative exploration and problem solving mode: designing compelling visuals and keeping projects organized so delivery stays smooth for clients and teams.

I collaborate easily in remote setups, and take full ownership of my shots communicating clearly, delivering on time, and keeping quality consistent across the pipeline.

### EXPERIENCE

---

#### Madwest / Scopely—Freelance 3D Motion Graphic Designer

May 2024 - Present [Remote | Spain]

- Led the design and art direction of high-impact **3D graphics** to promote the videogame **Monopoly GO!** campaigns across multiple platforms and social channels.
- Managing multiple design projects and management simultaneously, meeting deadlines while ensuring quality and consistency across all materials.
- Built a workflow between several software programs that integrates **3D production, editing, and compositing**, improving efficiency and ensuring a smooth end-to-end pipeline.

#### North—Freelance 3D Motion Graphic Designer

June - October 2025 [Remote | Barcelona, Spain]

- Designed the visual UI environments for **CUPRA** in-car displays, including **micro-animations** for interface interactions and **3D animations** showcasing the vehicle's features and functionality.

#### No.mad Project—Senior Motion Graphic Designer

October 2024 - June 2025 [Hybrid | Madrid, Spain]

- Created and developed high-impact visual content, including **FOOH** and large-format visuals for the **Plaza Callao screens (Madrid)**, delivering assets across multiple channels, from projection displays to social media, while collaborating with brands such as **Coca-Cola, Uber, and Milka**.
- Managing multiple design projects and management simultaneously, meeting deadlines while ensuring .

## **Wearecovert—Senior 3D Motion Graphic Designer | 3D Artist**

January 2022 - July 2024 [Remote | London, United Kingdom]

- Contributed across the full **CGI and compositing** pipeline **3D modeling, compositing, rendering, SFX and VFX** for advertising spots for brands such as **Apple** and **Amazon**, as well as TV/streaming projects including **The Jungle (Amazon Prime Video)**.
- Took ownership of end-to-end shot delivery, overseeing each shot from concept to final while supervising overall **art direction** and visual consistency.

## **Blackone / San Pablo CEU University—Cinema 4D Trainer | Senior 3D Motion Graphic Designer**

October 2018 - August 2023 [On site | Madrid, Spain]

- **Cinema 4D Instructor** for the **Motion Graphics Master's program** at **San Pablo CEU University (Universidad CEU San Pablo)**, in collaboration with **Blackone Studio**.
- Led the full curriculum design for a **3D focused Master's program**, structured into **20 modules** from Cinema 4D fundamentals to advanced use of **deformers, effectors, and simulation tools**, and project optimization through **XPresso** for procedural workflows, automation, and custom tool-building.
- Produced **3D product design and visualization** for **Teka**. quality of client project deliverables.

## **Cabify—Freelance Motion Graphic Designer**

November 2017 - December 2022 [Remote | Madrid, Spain]

- Designed **explainer videos** for app functionality and **rider onboarding** flows.
- Developed and provided **art direction** for the brand's promotional content on social media to strengthen its **visual identity** and engagement.

## **3DforScience—3D Generalist**

October 2020 - December 2021 [Hybrid | Madrid, Spain]

- Led the **art direction** across projects, ensuring the animation was visually consistent, scientifically accurate in intent, and clearly communicated the underlying biological processes and research-driven narratives.

## **EDUCATION**

---

### **University of Zulia—Diploma in Digital and Web Design**

Completed—[Maracaibo, Venezuela]

### **Monseñor de Talavera University College—University Higher Technician in Graphic Design**

Completed—[Caracas, Venezuela]

## **SKILLS**

---

- 3D, Motion Graphic Design, 3D Generalist, Key Visuals, 2D/3D Animation, Motion Design Production, Editing, Compositing, Lookdev.
- Presentation, Briefing, Conceptual Design, Layout, Typography, Art Direction, Team Management, Project prioritisation, Teaching.

- Cinema 4D, Houdini, Unreal Engine,
- Adobe Creative Suite: Substance Painter, Substance Designer, Photoshop, Illustrator, InDesign, Premiere Pro, After Effects, Audition, XD.
- Teamwork, Notion, Figma, Google Slides, Google Docs, Keynote, Microsoft Word, Power Point, Excel.
- Midjourney, Nano Banana, Kling AI, Comfy UI, ChatGPT
- Fluent in English and Spanish.

## WORK ELIGIBILITY & CONTACT

---

- Right to work in the United Kingdom, **Sponsorship required.**
- Location: Madrid, Spain. Availability to relocate internationally.
