Sean Wason

Summary

Skilled 2D&3D game art generalist with experience in full project cycle collaborative game development, having shipped award winning/recognized titles featuring my art assets and environments.

Well versed in creating quick turnaround optimized assets using industry standard software including zbrush, maya, blender and adobe-suite softwares, Unity and Unreal Engine.

Further experience in Game Development with in-person B2C sales events & delivering investor pitches to C-suite executives.

A passion for games and creative thinking.

EXPERIENCE

Contracting Promotional Graphic Designer — *Digital Designs for Social Media*

June 2024 - PRESENT

- Digital illustrations & typography design for large household-name brand social media pages
- Concept development through iterative art direction laid out in briefs
- Strengthening brand recognition through boosting clicks and engagement by using eye catching designs with my skills in colour theory, composition and 2D + 3D software
- Influencers collaboration (1 million+ following) graphics for targeted campaigns to multiply growth rates.
- Multi platform marketing graphics (X, TikTok, Instagram, Facebook, LinkedIn)
- An example of targeted designs resulting in successful conversions include a £5000 purchase by an individual customer, based on a digital illustration and typography

Independent — *E-Commerce Digital Design Products*

January 2024 - PRESENT

- Focusing on Etsy, Amazon & EBay arbitrage I gauged over 22,000 views on single products
- Viral social-media campaigns on TikTok & YouTube translated to sales on Drop-Shipped products and digital assets with high profit margins.
- Developing niche & product testing sequences to identify trends.
- Creating urgency through sales campaigns, funnels & targeted copy on social-media posts & email-lists.
- Products include clothing, twitch emotes, commissions, album covers, posters, game assets, concept art and portraits.

Monsoon Games — *Co-Director & Art Generalist*

January 2020 - December 2023

- As Co-Director I lead the team to realize an award-winning game
- I created pitches and presented to investors on a monthly basis
- I spearheaded in-person B2C events including presenting to the public and creating marketing material such as business cards, leaflets and promotional art.
- I coordinated development, creating workflow guides and Art-Bibles for the team to follow
- I ran daily scrum meetings to discuss progress and allocate tasks.

- Asset & environment development was my speciality where I produced the majority of work ending up in the final products.
- I worked in engine (Unity) to art-direct game levels
- I developed fully textured and optimized game-ready 3D assets with quick turnaround times

Athair — *Graphic & Web Design for Print on Demand Merchandise*

February 2022 - December 2024

- Founder & Entrepreneur behind Athair.
- I developed and implemented niche targeted cold-prospecting campaigns & follow-up sequences via cold-calling, social media & cold-email, obtaining 5+ booked-calls/week.
- I nurture qualified warm-leads, set calls & present persuasive sales pitches
- Using a SaaS business model and my Shopify & Gelato expertise I build E-Commerce stores for clients interested in merchandising
- Working closely with clients to realise their vision, I utilise my software expertise to develop visuals for their merchandise to be used on tops, hats and bags.
- Designs range from 2d illustrations, logos to 3d renders
- Softwares involved include: procreate, Photoshop, blender, nomad sculpt, Zbrush, substance painter, unreal engine and Maya.

ADDITIONAL EXPERIENCE

Alongside my Creative roles, I have worked corporate positions, utilising my sales experience and confidence within an outbound sales environment and with my strong communication skills. These experiences include:

The Group Royale — *Personal Sales Consultant*

January 2025 - PRESENT

- This is a part time - commission based role
- I sell luxury lifestyle and travel solutions to HNWI
- I have sold private jet charters, superyacht charters, privately chauffeured Rolls Royces, Maybachs & Bentleys
- All of my clients were prospected, qualified and closed independently
- I organised and held sales calls with prospects
- I maintained lead databases and updated accordingly
- I offered bespoke solutions based on clientele requirements and adjustments

Bunch — *Sales Representative*

June 2024 - February 2025

- In my FIRST month working at Bunch I closed over \$100,000 worth in sales
- Selling high-ticket premium services directly to qualified leads through discovery calls
- Using Zoho CRM to document & manage leads, prospective client sales & tasks
- Upselling services to reach monthly KPI targets
- Pitching, scriptwriting & closing sales daily
- Extensive product knowledge to inform prospective clients
- Performing hundreds of outbound calls & taking inbound calls daily
- Following up prospects via email and sms
- Building rapport with clientele
- Identifying client needs
- Sales, Target & Money/Commission driven

EDUCATION

Falmouth University — *BA Game Art*

September 2020 - June 2023, Falmouth, Cornwall

- I graduated with a **2:1** in Game Development Art
- A focus on the development pipeline, agile workflows, game engines, asset creation software, optimisation & version control
