EXPERT SKILLS

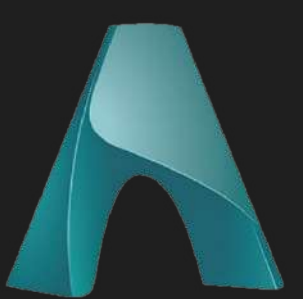

- Digital Sculpting
- 3D modeling
- Texturing
- UV Unwrapping
- Characters
- Creatures
- Leadership
- Ideation
- Mentoring
- Implementation

SOFTWARE PROFICIENCY

 Zbrush

 Keyshot

 Maya/Max

 Arnold

 Substance Painter

 Wrap

 Photoshop

 Unity

 Toolbag 3

 Unreal Engine

 Marvelous Designer

 Blender

HARD SKILLS

- High-end realistic character creation
- Stylized character creation
- Low Poly character creation
- Cloth sculpting & Simulation
- PBR & Hand painted texturing
- Anatomical and hard surface sculpting

LANGUAGES

- Spanish – Native
- English – B2

Passionate 3D Artist with 4 years of immersive experience in the video games and 3D industry, specializing in character design. Proficient across various artistic styles, particularly sculpting. Accredited Master's degree in Character Design and dedicated 2 years to mentoring aspiring talents in the realm of video game design and 3D art.

EXPERIENCE

Mago Productions – Mid 3D pipeline Consultant & Art Director September 2025 – Present

- Led the art direction and visual development for multiple 3D animation and visualization projects, ensuring stylistic consistency and high production quality.
- Designed and optimized the 3D production pipeline using Blender, improving workflow efficiency and cross-department collaboration.
- Provided technical consultancy on Blender integration, add-on development, and asset management strategies.
- Supervised teams of modelers and texture artists, offering feedback and mentoring to maintain artistic and technical standards.
- Coordinated with production and compositing teams to ensure smooth render and post-production pipelines.
- Delivered solutions for automation, procedural modeling, and shading optimization to accelerate production timelines.

Livitum – Senior 3D Artist June 2022 – August 2025

- Created high-quality 3D models for use in unity and website, ensuring adherence to project specifications and artistic vision.
- Collaborated closely with art directors, and 3D designers to bring assets to life and maintain consistency throughout projects.
- Demonstrated proficiency in sculpting, 3D modeling, and texturing to deliver engaging and dynamic 3D assets.
- Adapted to various art styles and provided creative input to enhance the visual appeal of assets within different environments.

Kr: Studios – 3D modeler and digital Sculptor July 2018 – February 2020

- Props Modeling (Autodesk maya, Blender)
- Character design (Zbrush)
- Texturing (Maya, Photoshop, Blender)
- Retopology (Blender)

Cloud Formación TIC-Blender and Zbrush Tutor June 2021 – June 2022

- Conducted classes and workshops on 3D art and character design for students pursuing video game and 3D art degrees.
- Developed lesson plans and educational materials to facilitate learning and skill development in 3D modeling, sculpting, texturing, and animation.
- Provided personalized feedback and guidance to students, fostering their growth and proficiency in 3D character creation.
- Collaborated with faculty members to enhance the curriculum and ensure alignment with industry standards and emerging trends.

Nascor Formación – Blender Enterprise Tutor Octubre 2021 – February 2022

- 3D modeler tutor for an online training company for other enterprises. Modeling, UV-mapping, Texturing, rendering, Rigging are one of the main skills I teach my students with Blender as a multiplatform software.

EDUCATION

Advanced Master's Degree In character Modeling And Texturing For AAA Video games at Voxel School

2024

Specialized in advanced techniques for character design in interactive media, combining artistic principles with technical proficiency. Conducted research and executed projects focusing on character development, storytelling, and visual aesthetics in video games.

Superior Technician of 3D Animation, Games and Interactive Enviroments, Videogames and Programing at EIS Imaxe e Son

2018-2021

Acquired a comprehensive understanding of game art design principles, including concept art, modeling, texturing, and animation. Honed skills in traditional fine arts, with a focus on sculpture, to enrich the creative process and elevate character design.
