Personal Data

Date of Birth 30th November 1969
Nationality British

I have been working as a 3d artist/generalist for over 25 years on projects ranging from film and television Visual Effects to advertising and previsualisation.

Skills

My skills encompass all aspects of 3d including modelling, texturing, animation, lighting, 3d Matchmoving tracking and special effects such as water, fire, explosions & smoke.

With a keen eye for cinematic sequences, I have produced Previsualisations for film productions including 1408, Alexander, Hitchhikers Guide to the Galaxy, Narnia: Voyage of the Dawn Treader and Band of Brothers.

I also have experience supervising for film & TV visual effects:

YorkshireTelevision: 'Ghostboat' - 3d Supervisor and sole 3d artist / animator.

James Bond 'Die Another Day' - 3d supervisor for Switchblade sequence.

Harry Potter 'Prisoner of Azkaban' – Look development, animator and supervisor for the Marauders Map sequences.

Harry Potter 'Order of the Phoenix' - Look development and animator of the 'Daily Prophet' newspaper sequences.

I am a recipient of an Emmy Award Citation in 'Outstanding Visual Effects' for my contribution to the HBO series 'ROME' and a Maverick Movie Award for 'Best Special Effects in a short film' for my work on S.N.A.F.U. By Julian Caldwell.

Employment

- | | |
|--------------|---|
| 2004-Present | ZDepth Ltd
Co founder and co Director, 3d Artist, VFX Supervisor. Using my years of accumulated knowledge, experience and skills to produce 3d CGI effects for many productions.
