

GABRIELE CARUSO

3D Artist / Animator

I am a passionate 3D artist and animator with an extensive array of skills spanning across various domains, which greatly enhances the versatility and flexibility of my workflow. I have been working on several projects using Unity and Unreal and I love creating cool characters and environments. I use software such as Zbrush, Blender, Substance Painter, Maya and 3Ds Max to model, texture, rig, and animate 3D assets.

Experience

- Jan 2025 - Present (contract)
NewFangled Games I Norwich, UK (remote)

Senior 3D Artist, Animator

Creating 3D characters, Animations and VFX for a new IP. Responsibilities include 3D modeling, sculpting, rigging, and animating characters and props. Working closely with Art Director, Game Designer and Environment Artist to create characters and animations that perfectly fit into the game's world.

- Oct 2024 - Jan 2025 (contract)
Nocturne Games I Paris, FR (remote)

Senior 3D Artist, Animator

Creating 3D characters, environments, and props for an upcoming game on Steam. Responsibilities include 3D modeling, sculpting, rigging, and animating characters and props. Collaborating closely with engineers to implement all assets into Unreal Engine, ensuring seamless integration and optimization.

- Jun 2024 - Sep 2024 (contract)
Record Games Ltd. I Ferring, UK (remote)

Senior 3D Artist, Animator

Working on characters and environments for a stylised music game, taking care of rigging and animations in Unity to support characters playing various instruments matching the right tempo of the in game music.

- Jun 2023 - Jan 2024 (contract)
Nocturne Games I Paris, FR (remote)

Senior 3D Artist, Animator

Crafting worlds, characters and lifelike animations for a shooter game called GoodNight Princess. My Focus was creating both characters and environment concepts and 3D models, texturing them using Photoshop and Substance Painter, making the rig and then animating them. I was then Importing all props in Unreal to create animation Blueprints, set up materials and create landscapes.

- 2015 - 2023
Space Lizard Studio Ltd. I Cambridge, UK

3D Artist, Animator, Sound Designer

I successfully completed the full development cycle of three mesmerizing video games using Unity, showcasing my expertise in 3D modeling, animation, sound design, rigging, concept art, and music composition.

- 2012 - 2016
Pivot Games I Sicily, IT

Sound Designer, Composer

I applied my musical talent and composition skills to create captivating soundtracks that set the tone and mood for three games. I have worked with artists and engineers to best implement sounds and music in Unity.
