Summary

- One year experience at a BAFTA award-winning studio, specializing in title sequences. Contributed to major titles for "Good Omens 3" on Amazon Prime Video and "Atomic" on SkyTV.
 - Experience in Autodesk Maya for realistic 3D modeling and poly optimization, ensuring high visual quality with efficient render times and performance.
 - Proficient in Cinema 4D, Redshift, Blender, Substance Painter, and the full Adobe Creative Suite (After Effects, Premiere Pro, Illustrator, Photoshop).
 - Experienced in Unreal Engine and Unity for VR, focusing on scene optimization and maintaining stable frame rates for real time applications.
 - Technical background in C# and C++ programming, supported by an MSc in Digital Design(3D Animation) and a BA/BSc in Game Design and Development.
 - Bilingual in English and Romanian with full right to work in the UK (no sponsorship required).
 - Portfolio available via the link above.
-

Professional Experience

3D Generalist | Peter Anderson Studio Ltd. | Jun 2024 - Aug 2025 | London, United Kingdom

- Contributed to the development and delivery of title sequences and in-show graphics for major broadcast series, including Sky TV's Atomic and Good Omens Season 3 on Amazon Prime Video.
- Produced camera tracked 3D text graphics, optimizing geometry to maintain high detail at low poly counts. Managed final compositing in After Effects to ensure seamless world integration and smooth visual flow.
- Delivered 3D models, textures, and animations for high profile projects.
- Managed tasks across the full production pipeline, from initial concept art (Photoshop, Illustrator) to 3D production (Cinema 4D, Redshift, Blender) and final compositing (After Effects).
- Created photorealistic 3D environments and assets by modelling and texturing based on real world set photography.
- Animated key narrative moments for in-show graphics, including character pieces and dynamic effects.
- Solved complex technical challenges, including optimising scenes for rendering and developing advanced materials to meet creative goals.
- Collaborated closely with the creative director and senior artists to ensure all work met the studio's high professional standards.

Volunteering & Event Management | Various Places | Sep 2017 - Sep 2020 | Brasov, Romania

- Fundraising & Direct Marketing: Collaborated with the local Red Cross for four months, successfully raising funds for homeless initiatives by planning and executing sales of handmade goods during the Christmas season.
- Large Scale Event Management: Contributed to the successful organization of the multi year "All-Nighter at the Museum" event, coordinating logistics and engaging with presenters (including public figures) and attendees throughout the night.
- On Site Operations & Logistics: Provided key operational support for the "15 Noiembrie" Cross (2018 & 2019), managing runner registration, badge distribution, and wardrobe logistics for a high volume of participants.
- Promotional Campaigns: Executed multiple direct promotional campaigns by engaging with the public, effectively distributing flyers, and clearly communicating the benefits of various services and products.

Volunteering | Scoala de Valori - GROW Project | Feb 2018 - Jan 2019 | Brasov, Romania

- Managed logistical and operational needs for a self development project targeting high school students, featuring international speakers brought in through exchange programs (e.g. Erasmus+, Workaway, etc.)
 - Contributed to promotion and outreach efforts, successfully engaging the target audience through both in school presentations and strategic online campaigns.
 - Organized all necessary materials and resources for workshops and events.
 - Provided comprehensive host support for international guests, focusing on cultural acclimation and a positive guest experience throughout their stay in Romania.
-

Education

MSc in Digital Design (3D Animation) | Brunel University London | Sep 2023 - Sep 2025

- Final grade: Distinction
- Awarded Best Motion Design project at the Made in Brunel Awards Show

BA/BSc in Games Design & Development | London South Bank University | Sep 2020 - Jun 2023

- Final grade: Second Class Honours (1st Division)
-

Skills

- Tools: Maya, Cinema 4D, Redshift, Blender, Unreal Engine, Unity, Substance Painter, After Effects, Premiere Pro, Illustrator, Photoshop, InDesign
- Languages: English (Fluent), Romanian (Native), Spanish (Beginner)
