Professional Summary

I have over 20 years of experience in advertising, film, and game development. I began my career at advertising agencies and spent 14 years working on a wide range of creative projects as a CG and Senior 3D Artist. For the past eight years, I have focused entirely on game development, creating real time assets and working closely with game teams.

In addition to my studio work, I am an independent game developer. I enjoy being involved in the entire creative process, from early concepts to final, playable results, and finding the right balance between visual quality and technical constraints.

Core Skills

- Character and Environment Modeling (High/Low Poly)
- PBR Texturing and Material Creation
- Rigging and basic animation for characters (R15)
- Asset Optimization for Mobile and PC
- Real-Time Lighting and Rendering

Engines & Tools

Game Engines

- Unreal Engine 5 (Blueprints, materials)
- Unity
- Roblox Studio

3D & Art Tools

- 3ds Max
- Blender
- ZBrush

Texturing & Rendering

- Substance 3D Painter / Designer
- V-Ray
- Octane Render
- Corona Renderer

Professional Experience

Co-Founder - Creative Director & Game Developer – Independent

2023

Digitaltoys ☞

London, United Kingdom

- I managed the entire creative process, including game concept development, visual design, character and environment art, UI/UX design, and overall creative direction.
- I developed and released 7 mobile games within three years.
- My first game, Glopy, was selected as Game of the Day on the App Store and featured on the front page in many countries.

- I am currently transitioning to the PC platform with **Star Buddy**, a 3D side-scroller platform game developed with Unreal Engine 5 (Blueprint system).
- I designed and implemented core game mechanics (double jump, physics interactions, bullet systems).
- I developed UI systems, including the Game Example logic.
- I created game effects using Niagara particle systems.
- I optimized performance and debugged game systems.
- I prepared marketing materials for Steam and social media promotion.
- I managed the visual identity and concept design for all published games.

Published Titles (8 Games – Mobile & PC)

- Catapult Legend (Honi)
- Glopy
- Glopy Junior
- Glopo
- Drop the Box 3D
- Sweet Jump
- Tetrax
- Star Buddy

Senior 3D Artist - Character Artist

Super League 

My role: Stage modeling, character modeling. I have worked on numerous projects involving preparing client visuals, as well as UV mapping and rigging (R-15).

08/2023

United Kingdom
