About Me

3D Game Artist with 7 years of professional experience in mobile and PC game development.

Focused on stylized character creation and game-ready asset production.

Experienced in globally released titles with millions of downloads, collaborating closely with designers, developers, and marketing teams.

Languages

- Turkish - Native
- English - B2 (Active use)
- German - A2 (Currently learning)

Education

- **Bachelor in Painting**
Mimar Sinan Fine Arts University 2015 - 2021

Experience

- **Lead 3D Game Artist / Visual Direction Support**
Roamer Games 2023 - 2025
 - Led the creation of stylized, game-ready characters for multiple casual and hybrid casual mobile games
 - Owned the full character production pipeline, from concept interpretation to final in-game implementation
 - Designed and modeled modular character systems adapted across different games, roles, and themes
 - Defined visual standards and supported visual direction to ensure consistency across in-game assets and promotional materials
 - Collaborated closely with game designers, developers, and UI artists to align visuals with gameplay needs
 - Produced marketing renders and promotional visuals used for store pages and social media
 - Optimized characters and assets for real-time mobile performance without sacrificing visual quality
- **3D Game Artist**
Wixot Games 2020 - 2023
 - Created low to high-poly 3D characters and props for hyper-casual mobile games
 - Designed modular assets optimized for fast production cycles
 - Produced marketing and promotional visuals and animations
- **3D Game Artist**
B100 Games 2018 - 2019
 - Designed and modeled characters for PC games
 - Created organic and hard-surface assets
 - Rigging, texturing, and in-engine lighting (Unity)
