

PROFESSIONAL SUMMARY

Highly trained 3D Artist with experience working as both an artist and a visualiser, responsible for the creation of high detailed models and assets for use in real time and pre rendered graphics. Versatile and highly motivated, with a unique ability to relate to diverse clients and create photorealistic assets for real time use. Seeking a fast-paced work environment allowing me to progress as an artist and learn from other talented artists.

EXPERIENCE

Environment Artist - EmperiaVR – West Midlands, UK

Feb 2025 to Feb 2026

Create high-quality, immersive 3D virtual environments for luxury and high-end brands, enabling engaging digital shopping and fully immersive spaces. Collaborate with cross-functional teams to translate creative concepts into optimized, visually compelling real-time environments using industry-standard tools and workflows.

Architectural Visualiser – Resolution Studios – Stourbridge, UK

Nov 2021 to Feb 2025

Our mission is to provide beautifully crafted 3D digital media to architects, interior designers & developers through the use of 3D tools & technologies. My role is to create high detailed renders to visualise clients projects. Techniques ranged depending on the clients needs with the final output consisting of photorealistic tours using Unreal Engine 5, Still image 360 tours using vRay and Kuula, and 4K renders using vRay.

Junior Artist - Innov8 Gaming – Birmingham, UK

Apr 2019 to Oct 2020

Created 2D and 3D visuals for use within games including 3D Modelling, Animating, and Rendering as well as editing within Photoshop. Used a high to low poly workflow to create highly detailed models and characters which are pre-rendered in Marmoset Toolbag and edited in Photoshop, before being sent over to the developers to include within the game.
