Personal Statement

First Class Degree with Honours in Animation and Visual Effects from the University of Lincoln. My passion and skillset lie mostly within hard surface modelling texture, lighting and rendering, but I am also very knowledgeable in the entire 3D pipeline. Throughout my time at Lincoln University, I gained a lot of experience and confidence with Maya as a software as well as Photoshop, Substance 3D painter, After effects, Deadline Monitor, Mud Box, Aftereffects and Premiere Pro. At the university's final degree show my team's film won two awards for Best 3D Film and Best Direction. I also personally received an award from the sponsor Wacom for best Animation Student for my hard work and dedication to the course.

I am conscientious, committed, hard working, reliable and meticulous in the execution of my work. I believe I am a team player I enjoy having a shared goal to work towards. I am always happy to listen to advice and constructive criticism to help me to strengthen my abilities and fulfil my full potential. My ultimate goal is to become a 3D Generalist in either the film or game industry. I am happy to relocate.

Experience

Education

University of Lincoln

BA(Hons): Animation and
VFX

2025

First Class Degree with
Honours

- Awarded Best 3d Film and Best Directionat film degree show
- Recieved Wacom Award for Best aination Student for dedication and creative excellence

Oathall Community College/
Sackville Sixth Form

West Sussex

A Levels / GCSEs:

Photography, Film Studies

- 6 GCSEs including Photography, which introduced me to the creative media field, and Photoshop
- 2 A levels including in Film Studies.
- 1 AS level

Optical Assistant

Boots Opticians | Burgess Hill, West Sussex | Nov 2025 - Current

- Customer service.
- Teamwork.
- Supporting patients.
- Accepting deliveries.
- Making appointments.

3D Generalist (non profit)

Fishbone Animation | May 2025 - Current

- Fishbone Animation is a small group I have formed with some like-minded fellow Lincoln Alumni. We are all very passionate about high standards of animation.
- Together we have worked on and are currently working on personal animation projects.
- The purpose of this is that we love our work, each bringing different skills to the projects that we display on social media for the purpose of gaining as much exposure as possible.

Event staff

Salted Orange | Jun 2024 - Sep 2024

- I travelled the country with Salted Orange, an exceptional catering company serving quality food
- Adapted to fast-paced environments across the UK
- Strengthened communication and teamwork skills
- Gained experience in client-facing roles and flexible work settings

3D Environment and Lighting

LB project | Lincoln, Lincolnshire | May 2024 - Sep 2024

- To further develop my skillset during the summer period whilst at University, I collaborated with several of my colleagues to produce a short, animated film.
- My responsibilities included 3D Environment modelling and lighting

Bussiness Owner

Jaybrick Creations Owner | Mar 2020 - Sep 2022

- Founded and ran a small buisness desighning and selling custom Lego mini figures
- Sculpted, painted, and modelled bespoke characters
- managed orders via eBay and Instagram, building repeat client relationships
- Developed budgeting, timekeeping, and customer service skills
- Maintained a consistent social media presence and multitasked across creative and logistic roles

Hobbies and Interests

I am committed to a regular gym routine, I enjoy setting myself goals and achieving these especially with consistent strength training and cardiovascular training. I also love to walk and am always keen to discover new trails to walk., I have a large Lego collection which I am always keen to add to! I also enjoy designing, sculpting and painting small character models. I love going to the cinema and recently have started to read and collect comic books, I especially like the artwork I find it inspirational.
