PROFILE

3D artist specialising in hard surface and environment modeling. Skilled across the full 3D pipeline with a focus on stylised art. Strong communicator, able to collaborate effectively with teams and clients to deliver tailored asset solutions.

WORK HISTORY

June, 2025 - Feb, 2026

3D Environment Artist

Mothlight Studios

- Designed and built 3 stylised environments from blockout to final polish, focusing on clear silhouettes and strong shape language while maintaining low poly counts.
- Optimised real time performance by creating LOD's for key assets and setting up efficient scene content for gameplay readability.
- Improved rendering performance and efficiency by putting multiple props into a single 4K texture set (shared UV layout) to reduce material count and draw calls while preserving visual fidelity.
- Created a library of tileable PBR textures to support modular environment building and consistent art direction across the game.

EDUCATION

Sept, 2022 - April, 2025

Bachelor of Arts - Games Design and Art

University of Southampton | United Kingdom, Southampton

Sept, 2020 - July, 2022

BTEC - Games Design

East London Arts and Music | United Kingdom, London

ACHIEVEMENTS

- Tranzfuzer 2025 Capital Fund Winner
- UK GamesFund, DunDev 2026 Investment Fund Winner

SKILLS

Softwares | Maya, Substance Painter, Designer, Z-Brush, Marmoset Toolbag and Photoshop

Game Engines | Unity and Unreal Engine
