

Ketaki Kulkarni, Architectural Visualiser

Contact: 07767431255, Email: ketaki.a.kulkarni22@gmail.com, <https://linkedin.com/in/ketki-kulkarni>

SUMMARY

Creative and detail-oriented freelance 3D artist with 3+ years of experience producing high-quality 3D images and realistic renderings for architectural and interior design projects. Proficient in 3Ds Max, SketchUp, V-Ray, Lumion, and Revit, with proven expertise in interpreting floor plans and client briefs to deliver compelling visualizations. Strong understanding of composition, lighting, and material textures. Skilled in remote collaboration and capable of delivering fast, client-ready results. Portfolio includes residential, commercial, and competition-winning designs.

WORK EXPERIENCE

- 07/2025 – **Architectural Intern** **Comfort being Firm LTD –** **Congleton, UK**
- Developed detailed Revit models for assisted living and residential projects, achieving **LOD 300–400 for construction documentation**.
 - Created precise **working drawings** including plans, sections, elevations, and detailed component assemblies.
 - Ensured all Revit outputs aligned with UK building regulations, project specifications, and BIM execution plans.
 - Coordinated with senior architects to update and refine LOD details, improving accuracy and constructability of the design.
- 07/2021 – 07/2023 **Junior Architect, Praveen Awate Architect Pvt Ltd.** Mumbai, India
- Created high-quality **photomontages and CGI visualizations** for various architectural projects
 - Designed and developed **architectural renderings using 3Ds Max, V-Ray, and Photoshop**.
 - Collaborated with diverse stakeholders on BIM modelling and project completion employing **Revit** alongside other 2D and 3D software.
 - Engineered the Bandra Redevelopment Project titled 'Urban Waves' in Mumbai, capably managing all aspects of technical drawing.
 - Led visualization work for the Bandra Redevelopment Project, ensuring high-quality technical drawings and presentations.
- 05/2020 – 07/2021 **Freelancing work, 3Digital Fusion** Mumbai, India
- Finalised 20 projects **CGI photomontages and 3D renders** to final walkthroughs within a 30-day timeframe.
 - Demonstrated exceptional leadership by successfully guiding teams to achieve project deadlines.
 - Continued to collaborate with various stakeholders on BIM modelling and project completion, using Revit and a suite of 2D and 3D applications including **3ds Max, Rhino, and Grasshopper 3Ds Max, Corona Render, SketchUp, Twin motion, and Enscape**.
 - Developed parametric models with Grasshopper, significantly contributing to the team **CREADHLE foundation's success** in winning an architecture competition.
 - Delivered full visualization packages from floor plans and sketches, with fast turnaround and successfully worked in remote environments.
 -

12/2018 – 04/2019

Internship, S.M.W Architect

Mumbai, India

- Assisted in **photorealistic rendering** for client presentations.
- Created detailed **interior and architectural drawings** using AutoCAD and SketchUp
- Participated in data collection for an architecture competition while collaborating with SMW and their partner Volume Zero.

EDUCATION

2023 – 2024

Nottingham Trent University

MSc., Digital Architecture and Construction

Nottingham, UK

- Key Modules: Digital Architecture and Construction, Computational Design, Applied Research, Collaborative BIM, Building Performance, Law of Digital Practice, Dissertation. Dissertation Project: Implementation of zero carbon in physical model integrated with BIM.
- Dissertation *Project*: **Implementation of zero carbon in physical model integrated with BIM.**
- Gained knowledge of UK building codes, ISO 19650 standards, and BIM workflows, including tools such as Revit, Di-Roots, and Power BI, with additional skills in sustainable design software like IESVE and Mass Motion.
- Developed expertise in computational design using Rhino and Grasshopper, creating projects such as the **UAE Pavilion's kinetic roof with Arduino integration**, and producing both physical and digital

09/2015 – 05/2020

Pillai HOC College of Architecture

B.ARCH., Architecture

New Mumbai, India

- Key Modules: Architectural Design, Building Construction, Building Services, Theory of Structures, History of Architecture, Theory of Art, Interior Designing, Town Planning, Model Making.

SKILLS

Technical skills:	Software skills:
Planning	Revit, AutoCAD, SketchUp
Parametric Design	Rhino- grasshopper
Visualization	Photoshop, Lumion, 3Ds Max, V-ray, Unreal Engine
Animation	Adobe premiere pro
Environmental Design	IESVE
Data Analysis	Power BI, Grasshopper

PROJECT HIGHLIGHTS

- Urban Waves – Bandra Redevelopment Project: Led 3D visualization and technical documentation for a large-scale urban revitalization, integrating exhibition-style storytelling for public communication.
- UAE Pavilion (MSc Project): Designed kinetic openable roof system using Grasshopper and Arduino, enhancing visitor engagement through movement and interactivity.
- CREADHLE Competition Win: Developed parametric models and 3D environments for a winning international design competition entry.

OTHER INTEREST

- Flutiest: Performed at five-star venues; confident in public performances
- Music: Passionate about how design and performance intersect
- Model- making: Strong interest in hands-on prototyping and creative exploration
