Highlights

Team player CGI architectural visualizer with the right to work in UK and EU, based in Milton Keynes, England, UK.

Background in art, historical research, graphic design, classic illustration, photography.

Able to adapt to and to adopt different visual styles easily.

Experience in creating visual content for some of the largest developers in the UK including Bellway, Barratt Homes, Taylor Wimpey, Cala Homes, David Wilson Homes.

Experience with 3ds max, Unreal Engine animation, Forest Pack software, Zbrush sculpting, Autocad, Vray rendering, Composition, Photography, Colour theory.

Working as an illustrator, graphic artist, cover designer and architectural visualiser I came to enjoy the multi-faceted reality of visual communication and the many ways in which it can be expressed.
