Mohammed Abdus Safa

3D Environment/Lighting Artist

CV

Profile

Well rounded Environment Artist with 5 years of experience in games and 3D art. Knowledge in PBR material workflow, Level Art using engines like Unreal and proprietary engines. I have worked in Virtual Production for TV production and have AAA game production.

Technical Skills

Unreal Engine 4 | Unreal engine 5 | Maya | 3DSMax | ZBrush | Blender | Substance Painter | Substance Designer | Substance Sampler | Reality Capture | Photoshop | Perforce | Houdini | vs code (ISL)

Experience

Unit 2 Games (Meta) / Environment Artist (On-Site)

My role at U2G had me assigned to multiple projects that are a part of Meta's Horizon Studio platform. This included public metaverse spaces for Instagram, pushing art quality for tech demos like 'Kaiju Evolution' to showcase at Connect and GDC and stress testing AI tooling for game development.

May 2025 - Dec 2025
Royal Leamington Spa

Ubisoft Reflections / Environment Artist (On-Site)

At Ubisoft, I was responsible for building out various sections for large open world maps, using in-house engines like Anvil and Snowdrop. Working with a AAA production pipeline, I work closely with Level Design and Art Direction to help relay creative ideas and gameplay functionality affecting the world and story. My work contributed to the recent 'From the Ashes' DLC in Avatar: Frontiers of Pandora.

Jan 2024 - Apr - 2025
Newcastle Upon Tyne

Bild Studios / Real-time 3D/Lighting Artist (On-Site)

During my time at Bild, I created and optimised scenes for Virtual Production in Unreal Engine, additionally, I worked on-site alongside camera technicians and the set director during test shoots in preparation for on-going productions.

Jul 2021 - Nov 2021
Hoxton, London
