Professional Profile

Creative and results-driven Animation & Visualization Specialist with 14+ years of experience in motion design, 3D visualization, and video production. Currently expanding expertise in Character Animation and Rigging to transition into interactive and real-time animation for games. Strong understanding of animation principles including timing, weight, movement, and performance. Known as a fast learner with proven ability to quickly adapt to new tools, pipelines, and production environments.

Key Skills

- Character Animation (Weight, Timing, Performance, Acting Fundamentals)
- 3D Software: 3ds Max, Blender (Rigging & Character Setup – Ongoing Training)
- Motion Graphics & Animation (After Effects)
- Real-Time Visualization (Twinmotion, Lumion)
- Rendering (V-Ray)
- Video Editing (Premiere Pro)
- Basic Unity Workflow Understanding (Asset Export & Implementation – Learning Stage)
- AI-Driven Creative Workflows
- Team Leadership & Process Improvement
- Time Management & Quality Control

Professional Experience

Motion Designer / 3D Visualization Specialist – Aquaworks, Hyderabad (2010 – 2025)

- Delivered high-quality 3D walkthroughs and animated sequences improving client engagement.
- Created dynamic camera animations and object animations demonstrating strong sense of timing and motion.
- Supported marketing teams with brand-aligned visual storytelling content.
- Led creative teams ensuring on-time project delivery and optimized production workflows.

Operations Associate – Amazon UK (Jul 2025 – Jan 2026)

- Maintained high productivity and accuracy in fulfilment operations.
- Worked under strict KPIs, safety and quality standards.
- Collaborated effectively within fast-paced team environments.

Professional Development

Character Animation & Rigging Training – Ongoing (2026)

- Completing structured training in character animation and rigging fundamentals with practical implementation projects.
- Developing hands-on experience in foundational rig setup, deformation basics, and animation performance principles.
- Rapidly advancing technical skills with strong adaptability to new software and workflows.
- Continuously expanding knowledge of real-time pipelines and Unity integration processes.

Portfolio – Selected Works

- Motion Graphics & Visual Effects Showreel – <https://www.youtube.com/watch?v=oUeZlAb8GVs>
- Creative / Promotional Video Work – <https://www.youtube.com/watch?v=OP84ctXt9Wc&t=9s>
- 3D / Animation Project Sample – https://www.youtube.com/watch?v=E8_xGDBgiYY

Education

Bachelor of Computer Applications

Advanced Motion Graphics Training – Aquaworks
