

PROFILE

Highly motivated 3D Artist with a passion for creating high-quality assets for games and architectural visualisation. Proficient in industry-standard tools such as Autodesk 3ds Max, Maya, and Unreal Engine 5, with hands-on experience optimising topology, PBR texturing, and lighting. Adept at working in collaborative environments and ensuring assets meet technical and artistic standards.

SOFTWARE

- Microsoft Office Suite
- Autodesk 3ds Max
- Autodesk Maya
- Substance Painter
- Adobe Photoshop
- Unreal Engine 5

TECHNICAL SKILLS

- Optimising topology
- Sub D modelling
- Weighting normals
- PBR texture workflows
- Baking details (high to low poly)
- Trim sheet creation
- Lighting and rendering

HOBBIES & INTERESTS

Passionate about storytelling in games, particularly those with deep world-building. Avid reader of medieval fantasy novels and dedicated to fitness and well-being.

EXPERIENCE

Freelance 3D Artist (2024 - Present)

- Created environment art for content creators, enhancing their digital projects.
- Designed 3D block outs and rendered assets for companies, aiding in visualisation and development.
- Developed game-ready assets for mobile games, ensuring efficiency and high performance.

Rivet Games (2023 - 2024) | Junior 3D Artist

- Created high-quality environment assets for Dovetail Games' Train Simulator World 3 & 4 add-ons.
- Optimised 3D models to ensure smooth performance while maintaining visual fidelity.
- Worked closely with senior artists to uphold consistency and meet project deadlines.

Collaborative University Projects & Game Jams

- Worked on a university-led game project supervised by Rockstar Games.
- Participated in game jams, creating environments and assets within tight deadlines.

EDUCATION

2019 - 2023 | Glasgow Caledonian University

BSc Computer Games (Art and Animation) with Honours
