I am a Spatial Designer specialising in digital environments, immersive experiences, and experience-led spatial design. With a background in narrative environments and spatial storytelling, I create concept-driven spaces that support atmosphere, flow and environmental storytelling across physical and digital contexts. Skilled in Blender, SketchUp, AutoCAD, and 3D visualisation, with experience working across scene development, lighting, mood exploration, and live or interactive environments.

WORK EXPERIENCE

05/2024-09/2024 SCREAMWORKS (London)

Escape Game: Open House

Placement

- Developed immersive 3D spaces using SketchUp, created atmospheric lighting concepts and visual moodboards
- Supported on-site installation and adjusted spatial arrangements to match performance and visitor requirements
- Produced visual documentation for senior designers and event marketing
- Nominated for Best Year Round Event 2025

08/2021-11/2021 YiTian Design Group Co. LTD (Wuhan)

Interior Design Assistant

- Created AutoCAD drawings including plans, elevations, partitions, and spatial layouts for commercial interiors
- Be responsible for the integration of site inspection plane data and preparation of a complete project slides report
- Supported senior designers in preparing design packages + visual boards

FREELANCE WORK

06 & 08/2025 Taobao Super Live Streaming Runway

3D Set Designer

- Coordinated with clients to confirm space measurements and plan set layout
- Created moodboards and developed set designs and 3D visuals
- Selected materials and props, ensuring alignment with the concept

02/2024 Skechers Shooting Set Design

3D Set Designer

- Supported in 3D modelling for shooting

LANGUAGE

- English (IELTS 7.0)
- Chinese (Native)
- Korean (Basic)

EDUCATION

2018-2022

China University Of Geosciences, Wuhan

Bachelor of Fine Arts

Environmental Design

2023-2025

Central Saint Martins, UAL, London

Master of Arts

Narrative Environments

SKILLS

Interpersonal

- Storytelling
- Customer Journey Mapping
- Concept Development
- Strong Communication
- Deadline-driven Workflow

Technical

- SketchUp/Blender (3D modelling)
- Vray/Lumion/Enscape/D5 (Rendering)
- AutoCAD (Floor plans, Construction drawings)
- Adobe Photoshop/Indesign
- Microsoft Office
- Material & FF&E selection
- Lighting concepts
- 2D/3D Technical documentation
- Experience prototyping & Installation
