- ❖ Provide customer service and communication, assisting guests and coordinating with staff for smooth operations.
- ❖ Respond to emergencies and make quick, effective decisions during crises.

Education

Kingston University | MA Computer Animation | 2023 – 2024

- Developed expertise in character animation, 3D modeling and the VFX production pipeline.
- Led a team project creating a VR experience from concept to final render.
- Utilized motion capture animation workflows and narrative storytelling techniques to produce an original animated sequence for MA thesis

Air University | BS Mechatronics Engineering | 2016 – 2020

- Focused on automation, robotics, and 3D modeling for engineering applications.
- Designed and programmed a functional prosthetic foot prototype using C++ and SolidWorks.
