English (Native proficiency)

Portfolio:

uchay.artstation.com

PROFESSIONAL SUMMARY:

Senior 3D Artist with 10+ years of experience in high-fidelity, game-ready asset creation for both Unreal Engine and UE5. Expert in the full Unreal Engine 5 lifecycle, specializing in manual and automated LOD optimization, PBR workflows, and high-to-low poly baking. Has a proven track record of delivering viral VFX and photorealistic real-time content that balances visual integrity with peak engine performance

Professional EXPERIENCE:

Technical Artist , 3D generalist

Storyloom AI., California, CA (USA (Remote)Contract)

December 2024 - December 2025

- Set up audio to facial animation using Unreal's blueprint, that animated characters' faces in real time with interchangeable conversational audio
- Level design and optimization, I have created a lot of assets using Maya, Blender and Substance Painter
- Bridging the gap between the creative and technical team, to deliver a cohesive user experience .
- Creating technical documentation of workflow for the team
- 3D character modeling, texturing rigging and animation with material and blueprint setup in Unreal.

Creative Director Quadron Studios

Lagos ,Lagos, WA

January 2016 - November 2024

- Led a team that delivered on over 20 animated TV commercials and visual effects for 5 Nollywood Movies (2 of which won awards for best visual effects in Nigeria)
- Led a team and actively participated in the research and development of 8 VR and AR apps, for HSE training, recruitment training and product marketing
- Created a VR proof of concept that earned Quadron Studios a \$20,000 grant from Facebook in 2018
- Was involved in the training and mentoring of new recruits, teaching them workflows and internal processes.
- Led a team to create 4 animated short films including a 20 minutes animation short film of an indie American comic book

Uche Anisiuba

3D Artist
